## Bryan and Silver.

It has been emiogized, has been beaten to the earth by boodle and cannot be relied upon to execute the will of the people while they are in industrial off whole they are in industrial dage. He believes there is a way of "this labyrinth, this tortuous ading and confusing maze." The out of "this labyrinth, this torthous out of "the socialist army have leaders of the socialist army have thrown open the door of hope to the toiling masses. Speaking for himself, he says he is a socialist, because he next official starter appointed by the next official starter appointed by the faction in her voice, in her manner; has become convinced that the compethase become convinced that the compethase become convinced that the compethative system is utterly cambinalism, in the vicinity of New York City. So far as can be learned, the matter has not been ratified, and as usual the not been ratified. tive system is utterly cannibalistic.

The issue is socialism vs. capitalism.

He confesses to no hope for the tolling masses except by the pathway
mapped out by the socialists. The late
election was really a flaming symbol
of victory because it aroused the mind
forces of millions of men.

## MURDEROUS FIEND,

Attempts to Exterminate a Family and Partially Succeeds.

Atlanta, Ga., Dec. 3L-Edward C. Fiannagan, an employee of the Standard Oil company, attempted to exter-minate the Allen family at Poplar Springs, De Kalb county, tonight, and did kill three members. His victims were Dixon E. Allen and wife, both more that 70 years of age, and Miss

Ruth Slaca.

Flannagan seems to have been in love with Lella Allen, the II-year-old granddaughter of Dixon Allen, the old couple's married son. G. W. Allen and his wife and two children lived with them in a new little cottage four miles from the city limits. Flannagan had been boarding with them for six months. His actions today were not quite natural, but he did not cause any alarm. It was noticed, though, And the first content and the first content

LATE ELECTION DID GOOD

Ball and Cue.

Chicago, Dec. 3L—The BensingerSuler billiard tournament came to an end tonight. Capron (280), the Canadian, in a brilliant game, defeated Magis (300) for first place by a secre of 280 to 297. Maggioli was the favorite, owing to his strong playing of the past two days, and the odds were 4 and 5 to 1 in his favor. Both men played a steady game, but three left on winke to his strong playing of the past two days, and the odds were 4 and 5 to 1 in his favor. Both men played a steady game, but three left on his opponent's string.

In the afternoon game Suiton beat Matthews for the fourth place. The score was: Sutton, 260; Matthews, 212.

Will Play Ball.

Providence, R. L. Dec. 3L—For the first time since 1893; Brown and Presented a far more appropriate vis-n-vis to the houses of parliament. Its presence there gently remin. Mod old-tashloned members that their constituents were no longer men whose first thought was a musement, but scientists, men of culture, of large mind, who needed enlightened legislation, and could no longer be hoodwinked by clever strung-together words of dubious meaning or the rescannibularity remin. Mod old-tashloned members that their constituents were no longer men whose first thought was a musement, but scientists, men of culture, of large mind, who needed enlightened legislation, and could no longer be hoodwinked by clever strung-together words of dubious meaning or the rescannibularity remin Mod old-tashloned members that their constituents were no longer men whose first thought was a musement, but scientists, men of culture, of large mind, who needed enlightened legislation, and could no longer be hoodwinked by clever strung-together words of dubious meaning or the rescannibularity remin Mod old-tashloned members that their constituents were no longer men whose first thought was a musement, but scientists, men of culture, of large mind, who needed enlightened legislation, in a brilliament. Its presence there gently remin Mod old-tashloned

a letter to be printed tomorrow in the Raifway Times he states that he supported Bryan and free silver, not because he regarded free coinage of silver as a panacea for all lifs, but because it furnished a railying cry and common ground against the trusts syndicates and corporations and, once united, they could press forward against industrial shavery. He says so per cent of organized wage-carners voted for Bryan and the result of the election was due to the fact that uncrganized workers overwhelmingly outnumbered those who were organized and who had been educated and drilled in the factics of the enemy and could not be coerced from voting their own convictions. The ballot, however much it has been enlogized, has been beatent to the earth by loodle and cannot be relied upon to execute the will of the the flag. The question was where such a man could be found who would be willing to assume the onerous and invidious duties of starter.

to analyze with scientific accuracy the slow progress of the diminution of tis-sue and the certain approach of dis-solution.

Yet with all his cleverness Professor

Owen had been unable to resist a pre-historic weakness—he had fallen in love with and married a very pretly woman. This, at first sight, appears only an amiable tendency to which many a great mind has heretofore been subject very way to of responses invest. many a great mind has heretofore been subject, yet was it of grievous import to the professor's peace of mind for though in 1829 science had made prodigious and progressive strides, virtue, alas! had been somewhat retrograde. Hence it was that, amidst his most abstruse calculations and subtle deductions, harrassing thoughts of his pretty wife would arise and disturb the calm mental abstraction which science demands. In an earlier and ruder age mental abstraction which science demands. In an earlier and ruder age it might have been said that the professor was jealous, but the leading medical light of 1920 pronounced it as his grave opinion that Professor Owen suffered from aggravated cardiae acerbitude, and the nervous irratibility produced by this insiduous disease caused

mony with her surroundings,
"You lecture at the institute tomorrow evening, do you not, Aristotie?"
she asked as the sweets appeared.
"Will you dine at home?"
He looked up quickly. His mental

great care near the left-hand door post. This done, Professor Owen returned to his study.

The following evening, at 6:30 precisely, Blatant arrived, and, after a few vague words to Mrs. Owen, he and the professor started. The little woman gave a sigh of relief as the door closed behind them, and stepping on to the balcony, with a happy smile on her lips, watched them out of sight.

Helios gardens, where Professor Owen resided, was dull and little frequented, especially after dark. It was a eminently respectable and quiet neighborhood; noise and frivolity were not encouraged. But on that evening the drawing-room of the professor's louse was trilliantly lighted, and thence issued weird, unusual sounds of merry dance music, or the refrain of a wild, popular ditty was wafted out upon the breeze, and made the full respectability of the encircling gloom shiver with shocked surprise.

Beneath the shadow of the ghostly skeleton-like trees facing the house a man, enveloped in a large close, and the watching figure drew a curious pear-shaped glass globe from beneath his cloak. Holding it carefully in his left hand, he manipulated some hidden machinery with his right, and a strange, green glow shone forth.

At the same line of focus as the right and I cannot see I e under bones distinctly enough to ascertain a fraz-ture. "Look at the legs by the plano," "Look at the legs by
